

Addonics Believes EaseUS' Software a Better Solution for Its Customers

Tue, 24 Jul 2012, 13:01:32 EDT

NEW YORK CITY, N.Y., July 24, 2012 (SEND2PRESS NEWSWIRE) -- EaseUS Software, a leading provider of backup, data recovery and storage management solutions for Windows environments, builds a strong partnership with Addonics Technology, a privately held company for providing professionals and business users innovative storage solutions with the highest quality and best compatibility in mind.

Addonics is at the forefront of the storage technology industry to provide customers the solutions to protect and extend the life cycle of the storage investment. Sharing the same goal with EaseUS Software, Addonics finds software solutions from EaseUS are useful to its customers.

Send2Press® Newswire

The wide range of products offered by EaseUS Software is used by private users, small- and medium-sized companies and large international organizations alike. The product portfolio covers the following application areas: data protection, data recovery, and storage management. EaseUS products distinguish themselves through their user-friendliness, high performance and low costs.

"This is a mutual benefit between us, and I believe there are lots of things that we can work together on in the future," said Liu Ji'en, CEO of EaseUS Software.

EaseUS welcomes any kind of cooperation with innovative technology developers. Advanced technologies like partition management, system and data migration, snapshot, database backup and restore, advanced formatting hard drive and NTFS for non-Windows help EaseUS stand out among other software providers.
