

Don't miss the world's first free iPhone data recovery software from EaseUS

NEW YORK, N.Y., July 5, 2013 (SEND2PRESS NEWSWIRE) -- EaseUS Software, one of the world's leading data recovery solutions providers, introduces all iPhone users the totally free iPhone data recovery software - EaseUS MobiSaver Free 2.0. It allows iPhone users to recover iPhone data including photos, videos, text messages, contacts and more - free.

You can't find any free iPhone data recovery software at other data recovery companies. You have to pay a lot for retrieving lost iPhone data; however, EaseUS software provides a completely free yet powerful iPhone data recovery solution for all iPhone users. Sometimes data might be accidentally deleted, or your iPhone might be dead for jailbreak failure or system update. No matter what it is, EaseUS MobiSaver Free can effectively recover lost photos directly from an iPhone, iPad, or iPod Touch.

Simply connect the iDevice to the computer, and launch MobiSaver Free. All your lost data can be retrieved back in a few seconds. Furthermore, in case where data cannot be recovered directly, EaseUS free iPhone data recovery software can also recover information from the latest iTunes backup file.

Key Features:

- * Recover Pictures & videos, Message attachments, Text Messages, Call History, Contacts, Calendar, Notes, Reminders, even Safari Bookmarks and more.
- * Scan and preview recoverable information from the iTunes backup file or directly from iPhone, iPad, iPod Touch.
- * Scan and preview recoverable information from the iTunes backup file.
- * Can recover lost information after factory re-set, failed iOS update, accidental deletion, etc.
- * No tech skills are required and cause no damage to your iDevices.
- * Works with iPhone 3G/3GS/4/4S/5, iPad and iPod Touch.
